Role

Founder & CEO of ZAMINAT.eco, Marketing Director at Used Car Dealership

PROFESSIONAL SUMMARY

My name is Sukhrobjon Rikhsiboev, and I am 24 years old. Education: Bachelor of Business Administration, Amity University Tashkent. I am an entrepreneur and project leader who combines strategic thinking, an analytical mindset, digital expertise, and hands-on management experience. I work extensively with AI across all business functions to streamline operations, amplify creativity, and drive measurable results. For the past 6 years, I have been working at an American car dealership, where I lead the marketing function and take responsibility not only for growth, but also for the overall operational efficiency of the business.

My experience includes:

- Strategic marketing and SEO growth powered by AI insights
- AI-driven content creation: animated videos, promotional materials, and educational content on environmental conservation
- Advanced image processing and optimization using AI to increase CTR across all marketplace channels
- Business analytics and reporting with AI-enhanced automation
- Internal IT processes, cybersecurity, and AI implementation
- Negotiations with platforms and partners
- Procurement, cost control, and process optimization through AI tools

I specialize in turning complex ideas into a clear strategy, a real product, and a scalable operating model.

KEY ACHIEVEMENTS

- Managed a 10 - 30-person department in a U.S.-based commercial company.
 - Increased organic traffic through SEO, blogging, AI-powered content strategy, and comprehensive digital marketing.
 - Created animated educational videos using AI about environmental conservation for social media audience engagement.
 - Developed promotional and product showcase videos using AI tools to introduce key projects and new inventory.
 - Implemented AI-powered image processing and optimization pipeline that increased click-through rates across all marketplace listings by processing and enhancing vehicle photography at scale.
 - Developed and implemented marketing templates using AI assistance that improved sales conversion and communication efficiency company-wide.
 - Led full business analytics: sales, profitability, expenses, turnover, competition, and market shifts using AI-enhanced reporting.
 - Integrated AI tools across nearly all business functions to automate repetitive tasks, improve decision-making, and significantly reduce operational overhead.
 - Negotiated with major platforms and secured more favorable commercial terms.
 - Took responsibility for cybersecurity, internal IT support, and emerging AI technology infrastructure within the company.
 - Managed procurement and coordinated key internal business processes.
-
