

ZAMINAT ECO

COMMUNITY-POWERED RECYCLING ECOSYSTEM

Transforming plastic and rubber waste into
high-margin construction materials.

UZBEKISTAN'S WASTE CRISIS

THE PROBLEM

14.8
MILLION
TONS

Annual solid waste
generated in Uzbekistan

01

5%

currently recycled
out of all generated waste

1 MILLION
TONS

Plastic waste generated
annually

POTENTIAL VALUE LOST

1 TRILLION
UZS

≈ \$80M USD annually

NEW REGULATIONS STARTING 2026

- Mandatory recycling
for hazardous waste

New environmental code
enforcement

- 50% landfill reduction
target by 2030

Government infrastructure
spending plans

- Uzbekistan lacks scalable
recycling infrastructure

→ This is the opportunity

OUR APPROACH

THE SOLUTION

From waste to value — powered by community.

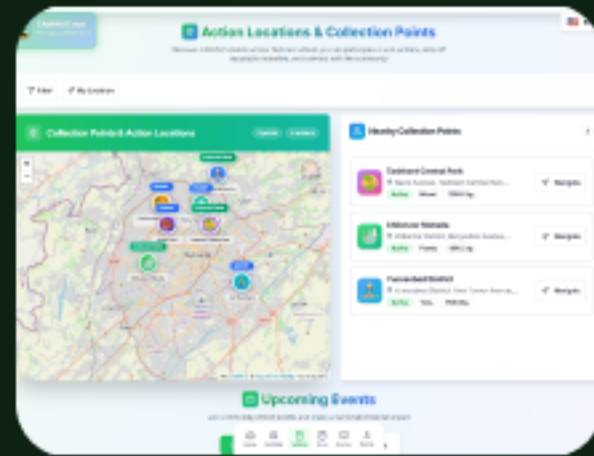

01

WASTE COLLECTION

Community app mobilizes Tashkent residents to collect plastic and rubber waste.

- Collection points map & navigation
- Reward & incentive system
- Eco-action events & gamification
- Waste-to-cash marketplace

DIGITAL APP · COMMUNITY · MAP

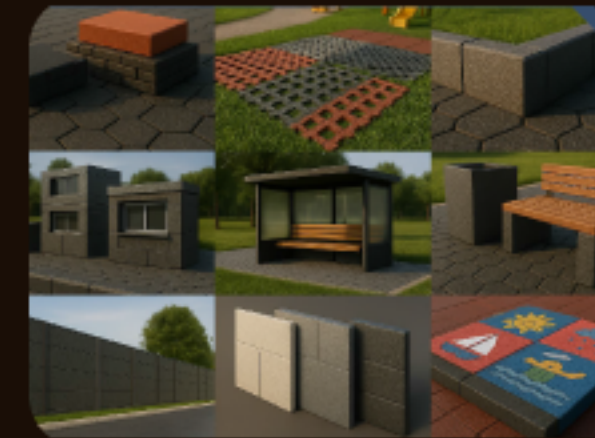

02

RECYCLING & MANUFACTURING

Processing raw waste into premium certified eco-construction materials with 60–70% margin.

- Plastic + rubber processing
- Quality-certified eco-materials
- Scalable production capacity
- Low cost input / high margin output

PROCESS · CERTIFY · SCALE

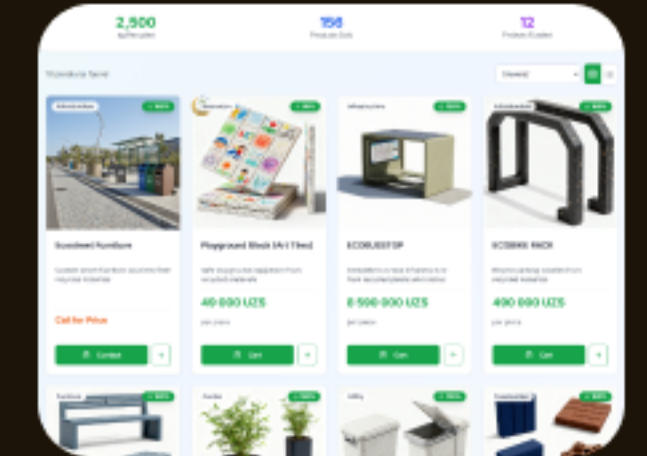

03

INFRASTRUCTURE PRODUCTS

Eco-construction materials sold to municipal and private sector buyers.

- Paving tiles & blocks
- Street furniture & benches
- Bus stops & bike racks
- Playground equipment

BUILD · SELL · IMPACT

WHY ZAMINAT.ECO WINS

COMPETITIVE ADVANTAGE

CRITERIA	ZAMINAT.ECO	Safe Rubber Cover	Wasteless	Amadina
RECYCLING TYPE	Plastic + rubber, up to 90% recycled content ✓ BEST IN CLASS	Rubber only	Multi-material (plastic, aluminum, paper)	Tire recycling only
DIGITAL ECOSYSTEM	EcoApp + EcoKids platform connecting recycling, education & community ✓ UNIQUE ADVANTAGE	✗ None	✗ None	✗ None
PRODUCT RANGE	Wide portfolio: tiles, curbs, blocks, panels, furniture ✓ WIDEST RANGE	Limited to surface coverings	Not product-focused	Mostly rubber tiles
COMMUNITY ENGAGEMENT	High — volunteers, schools, eco-programs ✓ COMMUNITY-FIRST	Low	Medium	Medium

The only player combining
recycling + manufacturing + digital community ecosystem
